

# Texas Coastal NPS Program

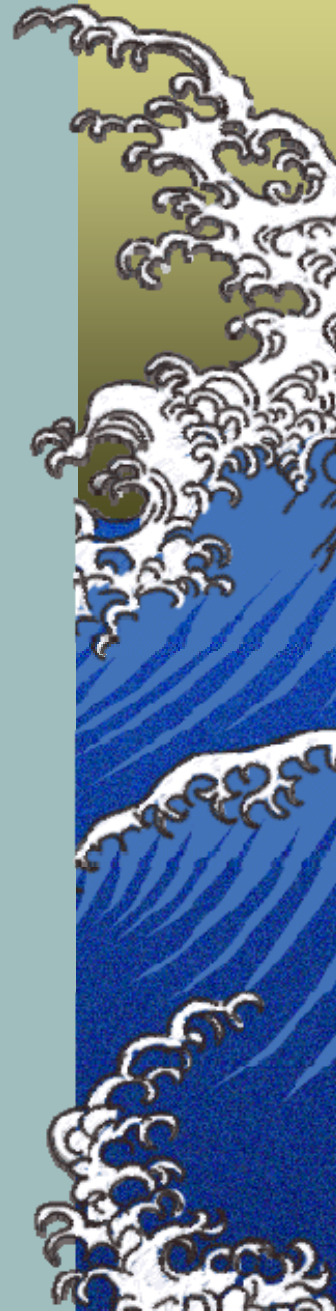

National Coastal Nonpoint Program Conference  
November 16 – 18, 2005  
Washington DC

*Tammy S Brooks*

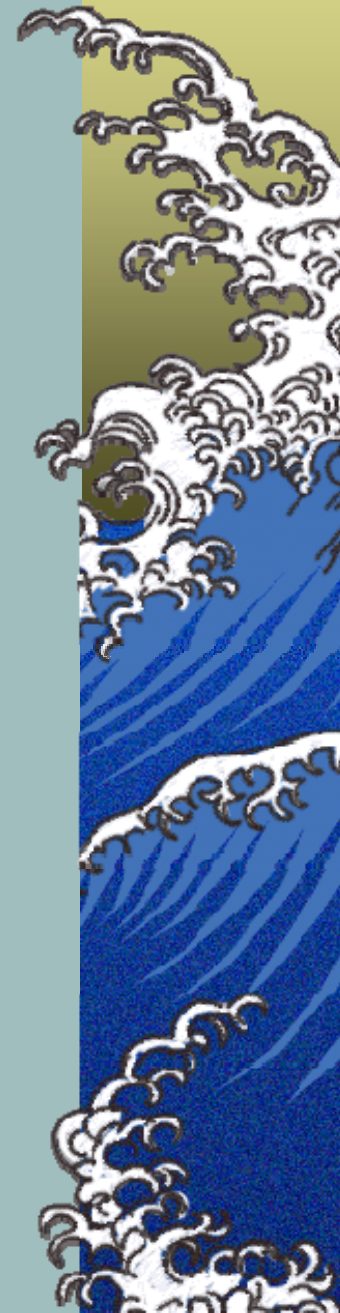

**The Texas CMP will be celebrating it's 10-year anniversary in 2006.**

Texas was conditionally approved in 2003, with the following remaining conditions:

- New Development and Existing Development
- Site Development
- Watershed Protection
- New and Operating Onsite Disposal Systems
- Roads, Highways, and Bridges
- Hydromodification

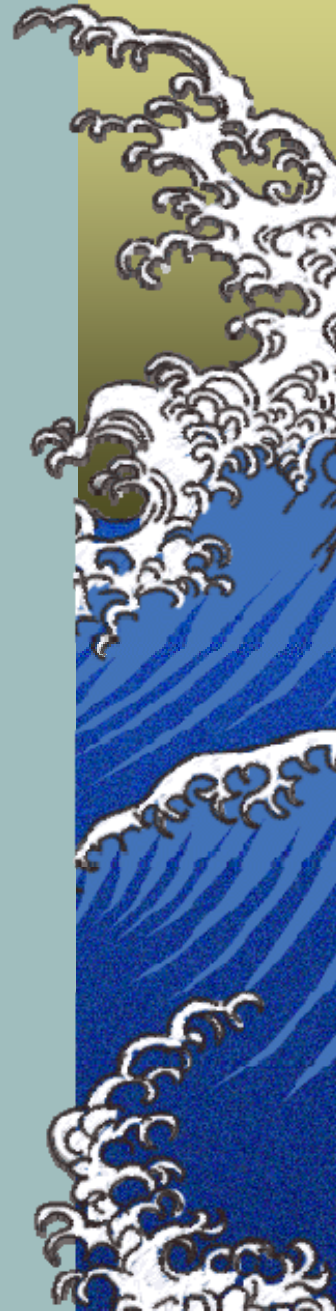

You want us to do what and by  
when?!?!?!?

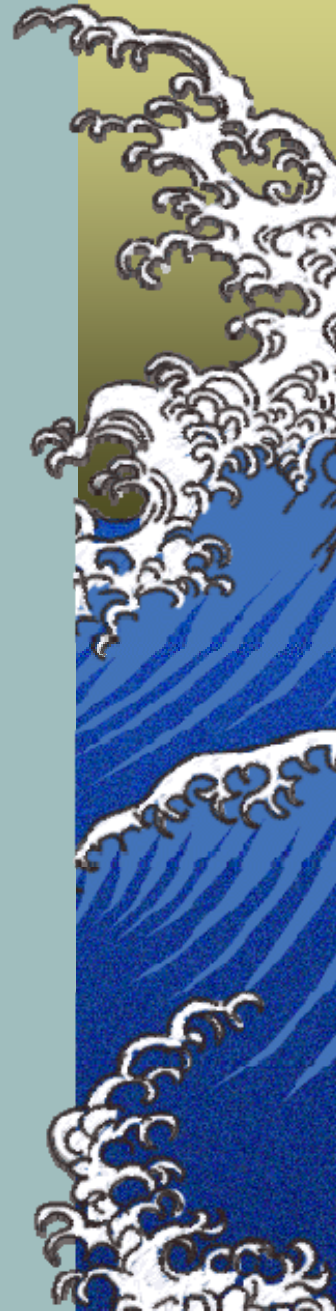

Ideas  
anyone?

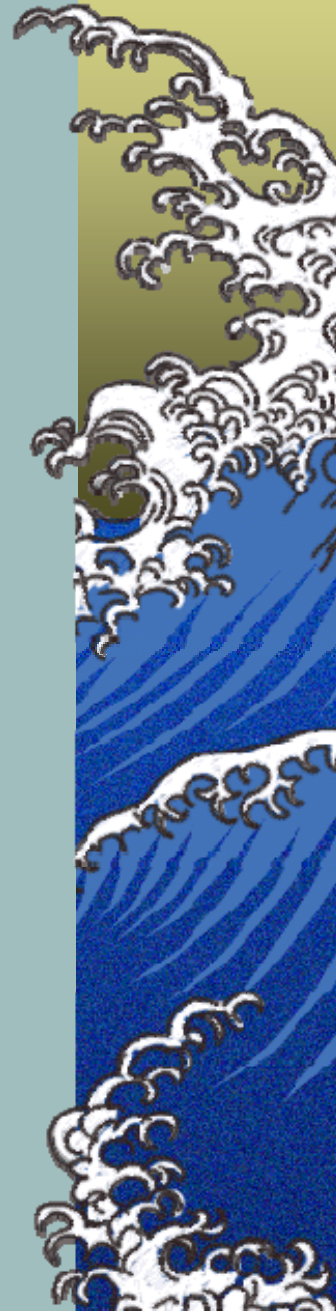

- Providing manuals on BMPs, Hydromodification, Smart Growth, erosion control, etc
- Providing training for local governments and municipalities on NPS pollution prevention
- Expand NEMO to cover broader area – currently just in Houston–Galveston
- Provide NPS information to Extension Programs (Sea Grant and Cooperative) to distribute to public
- Work with local governments to develop inspection programs for OSDS
- Work with networked agencies to incorporate new and existing programs to meet conditions

With new energy and  
enthusiasm, We will  
achieve the ultimate  
goal of . . .

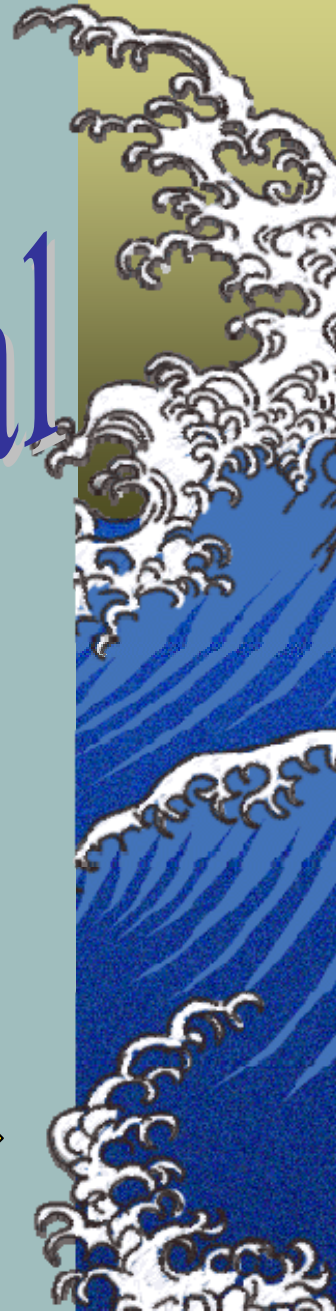

**Full Approval**

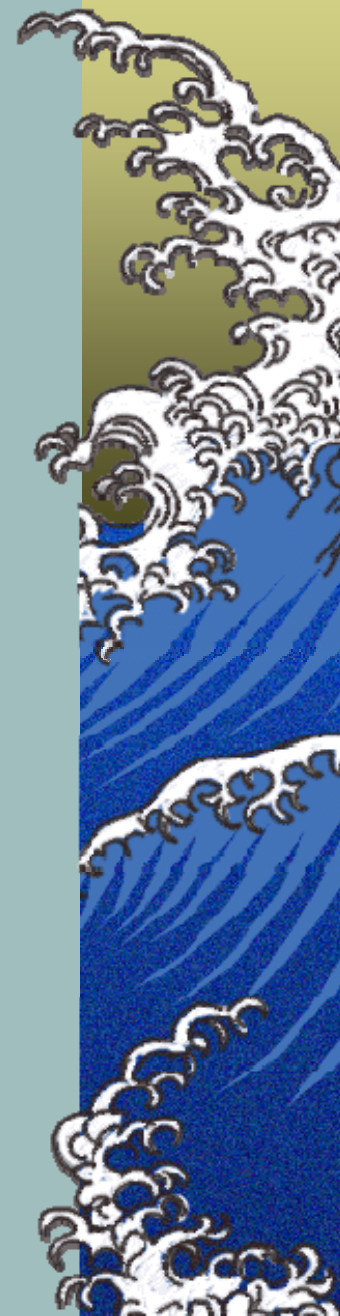

Full Approval

Full Approval

**Full Approval**

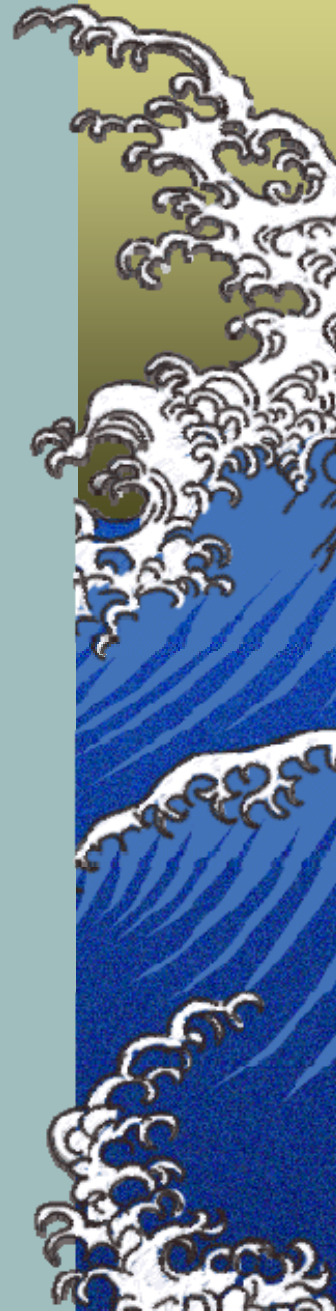

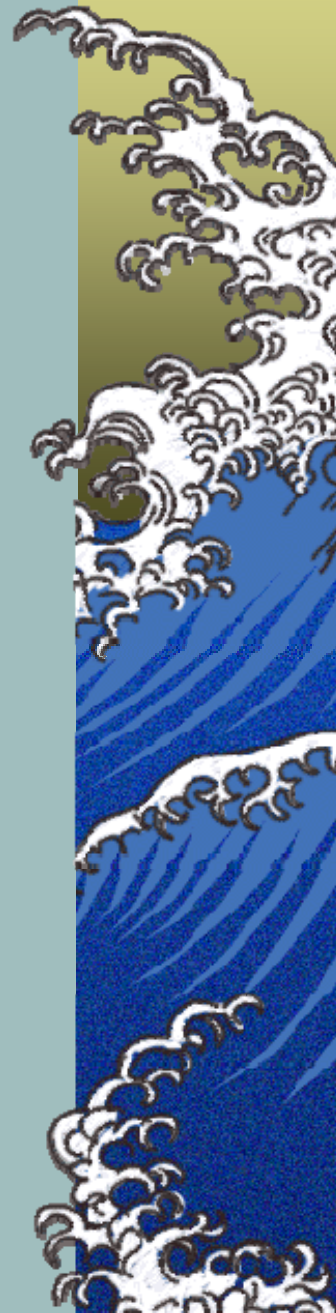

✦ **Can the CNP stand alone?**

✦ **What if there is no money?**

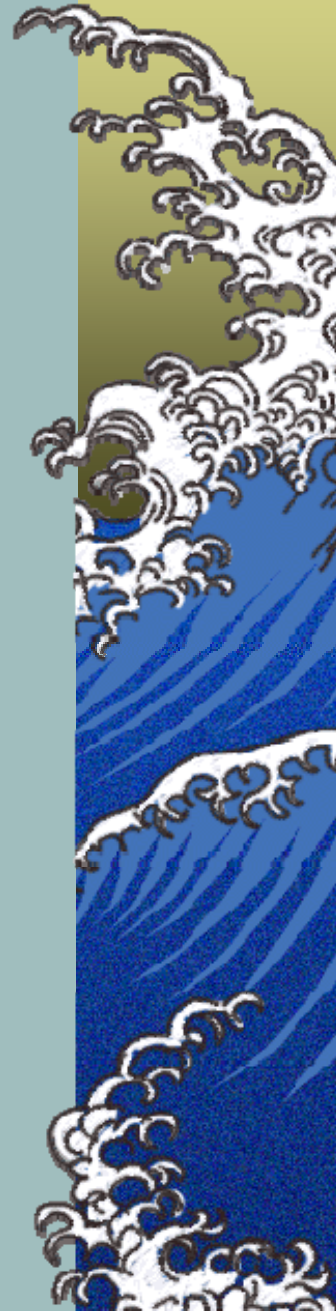

In Texas, it would be difficult for the coastal nonpoint program to stand-alone and it would be even more difficult with no funding. Texas has a statewide nonpoint program that is implemented by the Texas Commission on Environmental Quality and the Texas State Soil and Water Conservation Board (§319). The Texas Water Development Board also has a statewide nonpoint program.

Questions . . .
